Driveway Otorohonga River Pebble exposed aggregate with cinnamon colour.

Security System:

Designed and Installed by Hi Tech Security. David Tiong.

Keypads on all floors, with a magnetic swipe controller at the front door and a keypad on the front gate. It is monitored system and can be activated from remote locations via the Internet.

The system is linked to a DVR system, which has five security cameras recording in full colour. The recordings are kept for a month and automatically archived.

The front gate has JF Series system that is in full via LED colour screen. These systems enable communication with people who may be at the front gate.

It has access on all three floors. It records voice and picture data and will automatically archive this data.

Front gate is marine grade 316 Stainless Steel. It has keypad for residents to enter their own code. Entry data time date and code is all collected and archived.

Driveway gates are powder coated steel frames with stainless steel fittings.

The remote controlled door actuators are heavy duty and not affected by climatic conditions.

It is possible to have gate and garage remotes activating the alarms if this was desired.

Aluminum Joinery:

All Joinery is Vantage APL-Architectural Series. All hardware is brushed stainless steel. Colour: Metropolis Porpoise Glass: Clear laminated and toughened glass.

Vacuum System:

Beam Central Vacuum System. Model: 2875. Air Watts: 560 Outlets: Nine outlets throughout house.
